VeryPC

Computers For Education

A Message from Our Managing Director

At VeryPC, we've proudly supported schools and academies across the UK for over 20 years. Everything we do is built around our customers and their needs. That customer-first mindset is what has shaped who we are, and it's the reason we've been able to grow, adapt, and succeed over the last two decades.

We know that when technology works as it should, it enables better teaching and learning. That's why our products are designed for reliability, security, and long-term performance. From robust hardware to simple, flexible services, our solutions are geared around saving staff time, keeping costs down, and making IT easy to deploy, support, and manage.

Our own range of computers is built right here in our Sheffield factory, and we work closely with leading tech brands to give you plenty of choice. You'll get the quality and performance you need with complete peace of mind.

You can also take advantage of our full suite of hardware services including pre-configuration, installation, and recycling and packaging take-back. And if you need long-term support, our in-house managed IT team is ready to help, whether remotely or on site.

Doing a great job for our customers is what drives us. It's at the heart of our culture and it fuels how we innovate. When we create something new or improve a service, it's always with the end goal in mind: better outcomes for educators, learners, and support teams.

If you're already working with us, thank you. And if you're considering partnering with VeryPC, we'd love the opportunity to show you what we can do.

Andy Hopton

Managing Director, VeryPC

VeryPC Education Solutions

We've been supporting schools, academies, and trusts across the UK for over 20 years. In that time, we've built a reputation for being reliable, knowledgeable, and easy to work with. We're the kind of partner you can count on year after year.

Every year, we manufacture over 30,000 VeryPC devices for schools and colleges. To date, we've supplied over 3,000 education institutions and currently work with more than 1,000 schools annually. We know what works in classrooms, offices, and IT suites, and we've shaped our products and services around the real needs of education staff and students.

1,000+
schools choose us as their trusted IT partner

St George's School

Trafalgar School

Crispin School

Worthing High School

To meet growing demand, we've expanded our warehouse and production facilities over the past year. This investment means we can build and dispatch more devices than ever, helping schools get what they need faster and keeping projects on track.

Whether it's helping you plan long-term IT strategy or making sure your next device rollout goes smoothly, we're here as a trusted advisor. Our business is built on strong relationships, financial stability, and an experienced team who understand how to deliver at scale, securely and on time.

VeryPC is an accredited UK manufacturer, dedicated to supporting teaching, learning, and outcomes across education.

Transition to VeryPC for ICT suite PC's

"The Flex Micro is the ideal solution for the school environment, setting itself apart with a standard VESA mount and shroud. With the dedicated support of our account manager Colin, who consistently delivers prompt quotes and expertly sources the right hardware, we are empowered to create the best learning experiences possible."

Tom Clow, Trust ICT Services Manager

Computers designed for Education

"We were looking for a computer that was specifically designed for education. We were fed up with buying computer cases that were flimsy and easily damaged. I'd recommend VeryPC without hesitation. We've found the Flex Slim to be the perfect solution for our school and having used it now for 8 years it's by far the most reliable computer we've ever used."

Christian Rowlands, ICT Network Manager

What Our Customers Have to Say

Better tech for less

"I've been using VeryPC for around five years, after being introduced to the company about six years ago at a previous workplace. Since then, I've worked at three other organisations, all of which have adopted VeryPC devices after I introduced them to your products. Over the years, I've purchased hundreds— probably close to a thousand—devices. I've also had the chance to meet some of your sales team at BETT over the years."

Bradley Scott, Senior IT Technician

Optimising performance in a small footprint PC

"The Aspect Nano was super easy to set up and mount to the back of our new monitors. We had a very quick turnaround time, so this was a lifesaver. No issues at all with them so far, they've been running great! We've also had a lot of positive comments regarding the school branding printed on them."

Tom Fage, ICT Network Manager

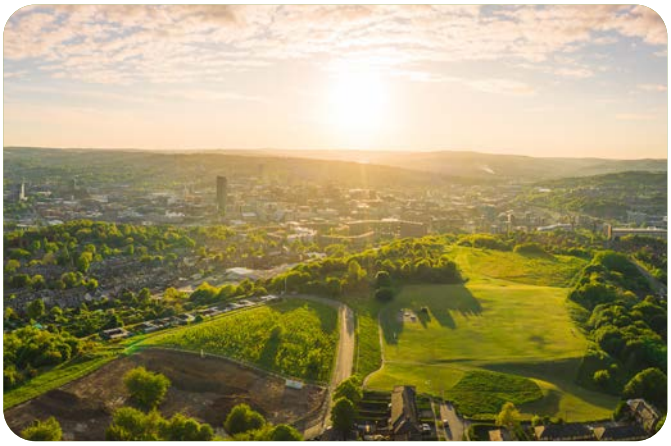
Custom laptops tailored to client needs, inside and out

"Our experience with VeryPC has been nothing short of exceptional. The Thinbooks we purchased have proven to be incredibly robust and reliable, standing up to daily use without any issues. We recommend VeryPC to anyone in search of technology solutions that truly deliver."

Billy Hartley-Mills, IT Manager

Our Values & Responsibility

Our vision is to be the leading UK brand for the manufacture and supply of computer hardware and services to thriving educational establishments and businesses based in the UK.



Sustainability

At VeryPC, we aspire to put sustainability at the heart of everything we do. We recognise the profound impact our industry has on the environment and society, and we are committed to making a positive difference.

Customer First

Everything we do at VeryPC is about putting customer needs first. Problem solving and saving time is our mission, allowing customers to focus their efforts on having the greatest impact within their organisation.

Teamwork

Whether you join VeryPC as a customer, partner, or teammate, you'll always be treated as part of our family. We communicate and work together to reach a common goal, whilst treating people with respect and consideration.

Giving Back

We believe in supporting the communities we live and work in. All staff are given three days a year to volunteer for a local good cause, and our team has already made a difference with local food banks, animal shelters, and community initiatives.

Our Facilities

30,000+
devices built annually

When you work with VeryPC, you're not relying on a third-party distributor. Everything happens right here in our purpose-built 20,000 sq ft facility in Sheffield.

We've built our warehouse and manufacturing space to handle scale without compromising on quality. It's a secure site with dedicated areas for warehousing, assembly, testing, provisioning, customisation, and packing. Every stage is handled in-house by our team.

All our products are made to order, so every device is built with the customer in mind. From a single unit to a full rollout, we're set up to deliver. Our facility has the capacity to manufacture over 100,000 devices a year, and every one of them is built to meet real-world education and business needs.

Product Design

Our education range is designed with one goal in mind: to meet the real-world needs of schools and academies. From classrooms and IT suites to staffrooms and STEM labs, every device we build is shaped by feedback from the people who use them most.

Sustainable

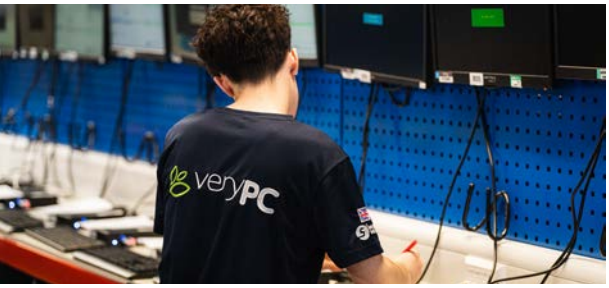
Our education range is engineered to reduce environmental impact at every stage, from energy-efficient components to recycled and recyclable packaging.

Durable

Our PC's are built to last, with robust chassis designs and components selected for long-term reliability. We include features such as anti-tamper bezels, lockable cable covers and security screws to handle school environments.

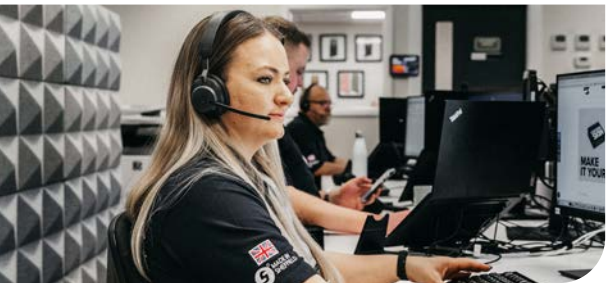
Serviceable

Our products are designed for fast repairs and easy maintenance, with accessible internals and modular components that help keep downtime to a minimum.



Warranty

Experience peace of mind with our comprehensive warranty options. We offer up to 5 years total coverage, including an Extended Service Plan designed to minimise downtime.



Support

In-house IT technicians who know VeryPC products inside and out, ready to diagnose, repair, and replace when needed.

Make it Yours

Add your logo, crest, motto, or colours. Make your new purchase yours. Durable, high-quality printed vinyl crafted by our in-house design team and caringly applied before shipping.

We say be proud, reinforce your brand, represent your school colours, or add a little je ne sais quoi.

- Full-colour printing
- Large, eye-catching branding
- Durable, long-lasting vinyl

Hardware Services

Our hardware services are built to take the pressure off your IT team. Whether you're rolling out a handful of systems or hundreds, we'll make sure everything arrives exactly how you need it, fully configured, clearly labelled and deployment ready. Just tell us how you want it done and we'll sort the rest.

BIOS Configuration

Get your systems boot-ready with customised BIOS settings. We can apply admin passwords, set boot orders, disable ports, and even brand your BIOS splash screen with your logo.

Custom Imaging

Your OS, your way. We'll apply your custom image (including apps, settings, and drivers) to every device. Want it stored for future orders? We've got you covered.

Autopilot Enrolment

We can enrol and pre-provision devices in Autopilot at our factory, cutting setup time and making deployment easier for your users.

MAC & Serial Provisioning

Need to assign network profiles or register assets before delivery? We'll provide device MAC addresses and serial numbers ahead of time so you can prep in parallel.

Asset Tagging

From barcodes to custom tags, we'll affix your identifiers straight to the device exactly where you want them.

Decommissioning

Decommission your existing hardware ready for redeployment or recycling.

Deliver to Desk

Skip the setup queue. Our engineers will unbox, cable, and configure your systems right at the user's desk, so everything's ready to go from the moment they sit down.

Equipment Recycling

Out with the old, responsibly. We collect and recycle your old kit in full compliance with WEEE regulations, ensuring nothing goes to waste unnecessarily.

Packaging Takeback

Once your new kit's installed, we'll remove and recycle all packaging waste. Clean, tidy, and eco-friendly.

Microsoft OEM Partner

Our Microsoft Partnership

VeryPC is proud to be a direct Microsoft OEM partner. Just like Dell, HP, and Lenovo, we work hand in hand with Microsoft to deliver devices that are fully licensed, tested, and ready for the classroom. The difference is that we combine this global partnership with a more local and personal service, giving you direct access to our Sheffield-based team. Every device also comes with our clean Microsoft Windows build image, zero bloatware and nothing unnecessary added, so you start with a fast, reliable system from day one.

Trusted in Education

As one of the top three UK education PC manufacturers, we understand the needs of schools, colleges, and universities better than most. Our Microsoft partnership gives us wide access to the latest products and ensures we can recommend and supply the operating system and software packages that best suits your environment.

Shape the Future

Through Microsoft's Shape the Future program, we can also provide schools with specially discounted licensing. This means lower costs on devices without compromising on performance, helping education budgets go further while still accessing the latest Windows features.

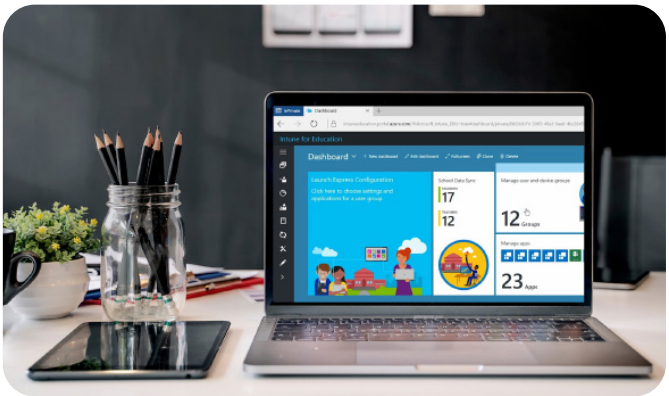
Contact our team to access discounted pricing through the Shape the Future program.

Fastest Growing

UK Education
PC manufacturer

Education Services

Rooted firmly in the heart of Sheffield, VeryPC is more than just a manufacturer of IT hardware solutions. Since our launch in 2004, we've become a trusted IT support partner to schools and businesses not only locally, but across the entire UK.



Intune Device Enrolment & Management

As more schools move to the cloud, we help with the setup and rollout of modern device management using Microsoft Intune. Our team provides consultancy, implementation, and ongoing support to keep devices secure, compliant, and simple to manage.

VOIP Phone Systems

We help schools move to modern VOIP phone systems that improve communication while reducing costs. VOIP is an affordable and scalable solution, suitable for small primaries right through to multi-site academy trusts. With VeryPC you get a full end-to-end service plus ongoing support.

Software Licencing

Software licensing can be complex, but our team of experts make it simple. We help you choose the right products and agreements to optimise costs and ensure compliance. Whether it's Microsoft, Veeam, Sophos, or another vendor, our specialists are here to save you time, reduce costs, and make life easier.

Support & Consultancy

Backed by an experienced team of IT professionals and a practical, hands-on approach, VeryPC supports hundreds of schools and teachers in maximising their IT systems, offering help with installations, migrations, connectivity, and cloud computing.

Solutions Beyond the Hardware

At VeryPC, we partner with the most trusted and innovative technology providers to support the unique needs of schools, colleges, and universities.

Our strong relationships with industry leaders such as Intel, Microsoft, SMART, and ASUS, enable us to deliver solutions that offer consistency, reliability, and exceptional value to the education sector.

We understand that every educational institution is different. That's why we take the time to listen and recommend tailored solutions that meet the specific goals of each school, whether it's enhancing classroom learning, streamlining admin processes, or building future-ready IT infrastructure.

By carefully selecting our partners, we ensure that educators and students benefit from long lasting, high-performance technology designed to support teaching, learning, and digital growth.

Sustainability

At VeryPC, we aspire to put sustainability at the heart of everything we do. We recognise the profound impact our industry has on the environment and society, and we are committed to making a positive difference.

Product Design

We use recycled plastics in our manufacturing and are moving to zero plastic packaging across our product range. By reducing packaging and choosing smarter materials, we cut waste without compromising protection. Inside the devices, energy efficient CPUs and PSUs are carefully selected to deliver strong performance while helping schools lower both their running costs and environmental impact.

Recycling Old Hardware

We provide a full collection and disposal service for old equipment, ensuring everything is handled in line with WEEE regulations and GDPR compliance. This saves schools valuable time and guarantees that devices are either securely reused or responsibly recycled, avoiding landfill and reducing environmental impact.

Refurbished IT for Charities

As part of our commitment to a circular economy in education, we partner with the Turing Trust to give old IT equipment a second life. Devices are refurbished and put to use creating complete ICT suites in schools across developing countries. This not only extends the lifespan of technology but also helps provide students worldwide with access to digital learning opportunities.

Carbon Reduction

VeryPC is committed to reducing greenhouse gas emissions in support of global climate goals. We aim to reach Net Zero by 2050, with a 50% emissions reduction by 2030. We will set clear, achievable targets and report our total emissions annually to track our progress.

Peace of Mind

Buying IT is about more than just specs. It's about trust, reliability, and knowing the support is there when you need it. We build peace of mind into every step of the process with the services and support that matter most.

Up to 5-Year Warranty - All of our education systems come with flexible warranty options of up to five years, offering long-term peace of mind and real value.

Try Before You Commit - We offer fully built demo units for testing in your own environment before making a larger purchase. It's a simple way to make sure the device is right for your needs.

UK Stocked Parts - We hold parts in our own Sheffield factory, so there's no waiting on third parties. That means faster repairs, replacements, and fewer disruptions in the classroom.

Clear Feedback, Honest Stats - We carry out regular feedback surveys with our customers to improve overall performance, hold ourselves accountable and make sure we're delivering where it counts.

Built on Customer Experience - We regularly speak with schools and trusts to understand how we're doing and where we can improve. The result? A better service shaped by the people who use it.

UK Helpdesk - Our support team is based right here in the UK, so you'll always speak to someone who understands our products and your setup. We work quickly to keep your downtime to a minimum.

Trusted Framework Supplier - VeryPC is an approved supplier on key education frameworks, including EverythingICT, Enframe and the Crescent Purchasing Consortium.

Call Off - Order early, lock in pricing, and we'll manufacture, securely store, and deliver to suit your schedule. Perfect for multi-site or large budget projects.

How to Buy

Buy Direct

Work with VeryPC directly to discuss your requirements and we'll recommend the right products and solutions for your school. You'll get guidance from our team who understand both technology and education.

Buy Through a Reseller

We also work with a trusted network of partners who share our commitment to service and value. If you already have a reseller relationship, we'll support them to make sure you get the best from your purchase.

Buy Through Frameworks

VeryPC is an approved supplier on nationally recognised frameworks, making procurement simple and fully compliant. Whether you choose the Crescent Purchasing Consortium (CPC), Everything ICT, or Enframe, we'll ensure you get the same level of service and value.

Our Framework Partners...

CRESCENT Purchasing Consortium

EVERYTHING ICT

enFrame

Crown Commercial Service

Sell2Wales

Always Supported

No matter how you choose to buy, our partner programme ensures you receive consistent support, excellent value, and the best possible solution. We actively encourage schools to engage with us alongside their chosen partner so we can deliver the right outcome together.

Ways to Pay

On Account

It's simple to work with us direct. We offer standard 30-day payment terms as part of every account, giving you straightforward ordering and peace of mind when managing budgets.

Finance with DFE Approved Lenders

We partner with several accredited education financing and leasing providers. These DfE accredited lenders offer flexible leasing and finance options, typically over 3, 5, or 7 years. This makes it easier to spread the cost of larger projects, manage constrained budgets, and plan with confidence.

Our Finance Partners...

MONEY SPHERE

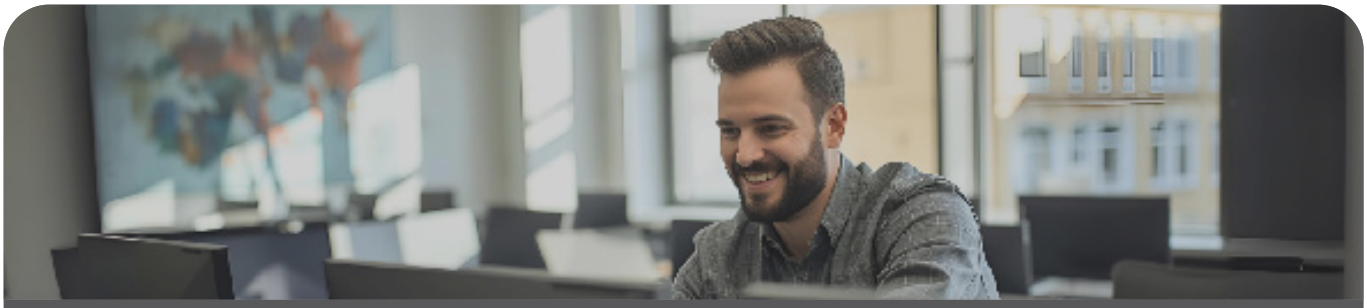
edde
education donation engine

Utility rentals



Why Choose Leasing?

Leasing can also give you the option to refresh your IT estate at the end of the term, ensuring you always have up-to-date, reliable technology without sudden spikes in spend. For many schools and colleges, this approach means smoother long-term planning and more predictable costs, all while keeping your classrooms equipped with the latest kit.

Thank you!
