All-in-One Touch G2

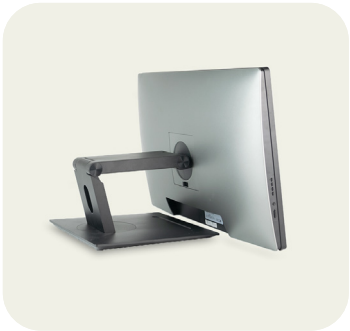
Product Overview

What Makes it Great?

The All-In-One Touch puts everything you need into one tidy setup, with no tower under the desk, fewer cables to manage, and more usable desk space.

The 10-point capacitive touchscreen makes it easy to tap, swipe, and collaborate directly on screen, while the Flexible Z-Stand adjusts for height or folds almost flat into tablet mode for hands-on work. The 5MP Windows Hello IR webcam gives users quick, secure sign-in, and pops away out of sight when it's not needed.

Backed by up to 7 years' warranty, it's built to keep going long after the rollout is finished.



5MP Windows Hello Webcam

Z Stand

10 Point Touch

Up to 7 year Warranty

Features

Made for Hands-On Learning

The 24″ 10-point capacitive touchscreen turns the All-In-One into a more interactive tool for classrooms. Students can tap, drag, draw, and work together directly on screen, making lessons feel more engaging and easier to join in with.

It works just as well outside the classroom too. Reception desks, retail counters, meeting rooms, and POS setups all benefit from quick, responsive touch input that's built for everyday use.

One Stand, More Ways to Work

The Flexible Z-Stand lets you raise, tilt, and swivel the screen to suit the person using it. Better posture, less neck strain, and an easier time sharing the same device across a classroom or team.

Push it further and the screen folds almost flat into tablet mode, bringing the display down to desk level for hands-on work. Ideal for group tasks, drawing, sketching, signing documents, or anything that's easier with the screen flat in front of you rather than upright.

Secure Sign-In, Less Fuss

The 5MP IR webcam works with Windows Hello, so users can sign in with a quick face scan instead of typing passwords. It's faster, more secure, and one less thing to remember.

When it's not needed, the camera pops away out of sight. Handy for shared spaces where privacy matters.

Hardware Services

Our hardware services are built to take the pressure off your IT team. From BIOS configuration and custom imaging to on-site setup and responsible recycling, we handle every step to get your devices ready for action. Whether you're rolling out a handful of systems or hundreds, we'll make sure everything arrives exactly how you need it, fully configured, clearly labelled, and deployment ready. Just tell us how you want it done and we'll sort the rest.

BIOS Configuration

Get your systems boot-ready with customised BIOS settings. We can apply admin passwords, set boot orders, disable ports, and even brand your BIOS splash screen with your logo.

Custom Imaging

Your OS, your way. We'll apply your custom image (including apps, settings, and drivers) to every device. Want it stored for future orders? We've got you covered.

Autopilot Enrolment

Plug and play with Microsoft Intune. We'll pre-enrol your devices in Autopilot, making setup a breeze for your IT team.

MAC & Serial Provisioning

Need to assign network profiles or register assets before delivery? We'll provide device MAC addresses and serial numbers ahead of time so you can prep in parallel.

Asset Tagging

From barcodes to custom tags, we'll affix your identifiers straight to the device exactly where you want them.

Decommissioning

Decommission your existing hardware ready for redeployment or recycling.

Deliver to Desk

Skip the setup queue. Our engineers will unbox, cable, and configure your systems right at the user's desk, so everything's ready to go from the moment they sit down.

Equipment Recycling

Out with the old, responsibly. We collect and recycle your old kit in full compliance with WEEE regulations, ensuring nothing goes to waste unnecessarily.

Packaging Takeback

Once your new kit's installed, we'll remove and recycle all packaging waste. Clean, tidy, and eco-friendly.

Warranty

Our warranty options give you up to 7 years' total coverage, including an Extended Service Plan built to keep downtime to a minimum. Options vary by product and range, so ask what's available when you get your quote.

Return to Base Plan

You send it, we fix it. If we can't resolve the issue remotely and a hardware fault is identified, just log a ticket, pack your device, and ship it to us. We'll handle the repair and get it back to you.

What's covered

Remote fault diagnosis

Labour and parts

Return shipping

Standard Service Plan

We collect, repair, and return. No shipping to sort on your end. If we can't resolve the issue remotely and a hardware fault is identified, we'll arrange collection from your site, carry out the repair, and send it back to you.

What's covered

Remote fault diagnosis

Labour and parts

Collection and return shipping

Advanced Exchange Plan

Rapid swap-out cover when uptime matters most. If we can't resolve the issue remotely and a hardware fault is identified, we'll ship a replacement unit or part to you and collect the faulty item at the same time. No waiting around for a repair to come back.

What's covered

Remote fault diagnosis

Advance replacement parts or units

Courier exchange (collection and delivery in one visit)

Extended Service Plan

Our highest level of cover, for when you need the right fix, not just a fast one. If we can't resolve the issue remotely and a hardware fault is identified, we'll arrange for a qualified engineer to attend onsite and carry out the repair. Where it helps get you back up and running sooner, we can also dispatch parts in advance.

What's covered

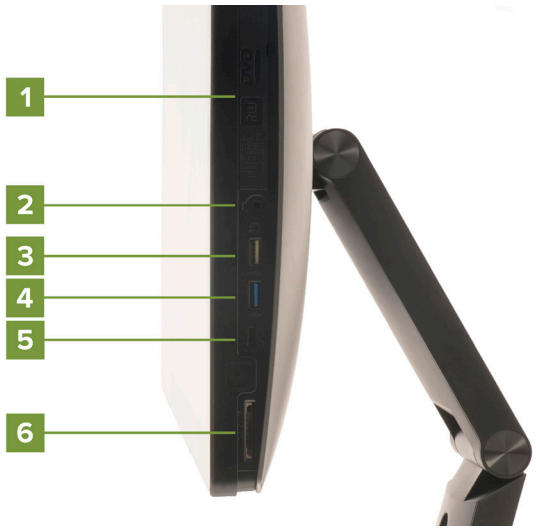
Everything in our Standard Service Plan

Advance parts dispatch

Courier exchange (collection and delivery in one visit)

Onsite engineer visit

Ports & Slots



Side IO

1. DVD
2. 1 x 3.5mm audio
3. 1 x USB 2.0 (Type-A)
