Thinbook 15P G1

Product Overview

What Makes it Great?

The Thinbook 15P pairs a larger 15.6″ Full HD IPS display with the performance and durability of the Thinbook range. The bigger screen makes everyday work easier on the eyes, while a 60Wh battery with fast charging keeps the laptop going through the day.

Wi-Fi 7 handles the busiest networks without slowing down, and a 5MP Windows Hello camera with a built-in privacy shutter makes sign-in quick, secure, and easy to switch off when not in use.

Tested to MIL-STD-810H for the everyday knocks and bumps of school and working life.

All Day Battery Life

5MP Windows Hello Camera

Wi-Fi 7

Fingerprint Reader

MIL-STD-810H Tested

Features

A Full Day Of Work on a Single Charge

The 60Wh battery in the Thinbook 15P is built to last through a full school day or a working day on the go, without needing to head back to the charging trolley or hunt for a socket.

When it does need topping up, 65W fast charging gets it back in action quickly, so a short break or a coffee stop is often enough to keep things moving.

Sign In with a Glance

The Thinbook 15P gives you two quick, secure ways to sign in without typing a password. The 5MP Windows Hello camera handles face recognition with a glance, while a fingerprint reader on the touchpad lets you sign in with a tap.

Built for the Everyday Knocks

The Thinbook 15P can handle being shoved in a bag, dropped onto a desk, or carried around all day without falling apart. It's tested to MIL-STD-810H, covering drops, shocks, vibration, and extreme temperatures.

It won't survive every accident, but it's built to take the kind of treatment laptops actually get in schools and on the road.

Wi-Fi 7 for Busy Networks

Wi-Fi 7 is the latest wireless standard, built to handle busy environments with lots of devices connecting at once. That makes it a strong fit for school networks running cloud-based learning, video, and shared resources, and just as useful in offices, co-working spaces, and home setups with plenty of devices on the go.

Faster speeds, less interference, and a more reliable connection when the network is at its busiest.

Hardware Services

Our hardware services are built to take the pressure off your IT team. From BIOS configuration and custom imaging to on-site setup and responsible recycling, we handle every step to get your devices ready for action. Whether you're rolling out a handful of systems or hundreds, we'll make sure everything arrives exactly how you need it, fully configured, clearly labelled, and deployment ready. Just tell us how you want it done and we'll sort the rest.

BIOS Configuration

Get your systems boot-ready with customised BIOS settings. We can apply admin passwords, set boot orders, disable ports, and even brand your BIOS splash screen with your logo.

Custom Imaging

Your OS, your way. We'll apply your custom image (including apps, settings, and drivers) to every device. Want it stored for future orders? We've got you covered.

Autopilot Enrolment

Plug and play with Microsoft Intune. We'll pre-enrol your devices in Autopilot, making setup a breeze for your IT team.

MAC & Serial Provisioning

Need to assign network profiles or register assets before delivery? We'll provide device MAC addresses and serial numbers ahead of time so you can prep in parallel.

Asset Tagging

From barcodes to custom tags, we'll affix your identifiers straight to the device exactly where you want them.

Decommissioning

Decommission your existing hardware ready for redeployment or recycling.

Deliver to Desk

Skip the setup queue. Our engineers will unbox, cable, and configure your systems right at the user's desk, so everything's ready to go from the moment they sit down.

Equipment Recycling

Out with the old, responsibly. We collect and recycle your old kit in full compliance with WEEE regulations, ensuring nothing goes to waste unnecessarily.

Packaging Takeback

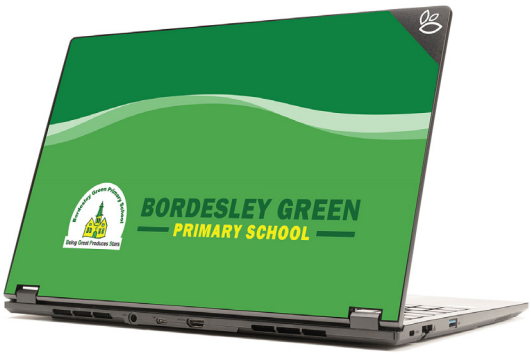
Once your new kit's installed, we'll remove and recycle all packaging waste. Clean, tidy, and eco-friendly.

Custom Branding

Add your logo, crest, motto, or colours. Make your new Thinbook 15P yours. Durable, high-quality printed vinyl crafted by our in-house design team and caringly applied before shipping.

We say be proud, reinforce your brand, represent your school colours, or add a little je ne sais quoi.

- Full-colour printing
- Large, eye-catching branding
- Durable, long-lasting vinyl



Warranty

Our warranty options give you up to 7 years' total coverage, including an Extended Service Plan built to keep downtime to a minimum. Options vary by product and range, so ask what's available when you get your quote.

Return to Base Plan

You send it, we fix it. If we can't resolve the issue remotely and a hardware fault is identified, just log a ticket, pack your device, and ship it to us. We'll handle the repair and get it back to you.

What's covered

Remote fault diagnosis

Labour and parts

Return shipping

Standard Service Plan

We collect, repair, and return. No shipping to sort on your end. If we can't resolve the issue remotely and a hardware fault is identified, we'll arrange collection from your site, carry out the repair, and send it back to you.

What's covered

Remote fault diagnosis

Labour and parts

Collection and return shipping

Advanced Exchange Plan

Rapid swap-out cover when uptime matters most. If we can't resolve the issue remotely and a hardware fault is identified, we'll ship a replacement unit or part to you and collect the faulty item at the same time. No waiting around for a repair to come back.

What's covered

Remote fault diagnosis

Advance replacement parts or units

Courier exchange (collection and delivery in one visit)

Extended Service Plan

Our highest level of cover, for when you need the right fix, not just a fast one. If we can't resolve the issue remotely and a hardware fault is identified, we'll arrange for a qualified engineer to attend onsite and carry out the repair. Where it helps get you back up and running sooner, we can also dispatch parts in advance.

What's covered

Everything in our Standard Service Plan

Advance parts dispatch

Courier exchange (collection and delivery in one visit)

Onsite engineer visit

Ports & Slots

Right IO

1. SIM Card Reader
2. 3.5mm Audio
3. SD Card Reader
4. USB 3.2 Gen 1 (Type-A)
5. USB 2.0 (Type-A)

Rear IO

6. DC-in
7. USB 3.2 Gen 2 (Type-C PD + DP Alt Mode)
8. HDMI

Left IO

9. Kensington Lock
10. 1Gb LAN (RJ45)
11. USB 3.2 Gen 1 (Type-A)

Technical Specification - AMD Ryzen (7000 Series)

Performance

Processor	AMD Ryzen 5 7535HS - 6C/12T
Memory	Up to 32GB DDR5 5600MHz
Storage	Up to 4TB NVMe SSD
Graphics	AMD Radeon 660M (Ryzen 5)
Operating System	Windows 11 - Home / Pro / Education No operating system - Optional

Display

Resolution	Full HD (1920 x 1200)
Size	15.6” (16:9)
Type	IPS
Brightness	250 Nits
Surface	Matte

Physical

In the box	Thinbook 15P System USB-C Power Adapter UK Power Cable
Dimensions (WxDxH)	356 x 232 x 25mm
Weight	Gross Weight: 2.91kg Net Weight: 2.05kg
Packaging	Plastic: 148g

Warranty

Warranty	Up to 5 years

Connectivity

Networking	1Gb LAN Azurewave AW-EB601NF (Wi-Fi 7 802.11be + Bluetooth 5.4)
Left IO	1 x USB 3.2 Gen 1 (Type-A) 1 x 1Gb LAN (RJ45)
Right IO	1 x USB 3.2 Gen 1 (Type-A) 1 x USB 2.0 (Type-A) 1 x SD Card Reader 1 x 3.5mm Audio 1 x SIM Card Reader
Rear IO	1 x USB 3.2 Gen 2 (Type-C PD + DP Alt Mode) 1 x HDMI 1 x DC-in

Battery

Battery Life	8+ Hours
Battery Capacity	60WH
Power Supply	65W USB-C Power Adapter

Security

Biometrics	Finger Print Reader
Security Lock	Kensington
TPM	TPM 2.0

System

Webcam	5MP Windows Hello Camera with Privacy Shutter
Keyboard	Backlit UK QWERTY
Audio	HD Audio
